Wildlife comes to KU Windale Preschool

The children and parents at KU Windale Preschool were given a special visit by Bob Turner Wildlife last Thursday. Bob brought an educational and entertaining show using a selection of various animals including an olive python, lizards, frogs and toads. Parents and children were invited to participate in the show. It had everyone on the edge of their seats and at times rocking with laughter.

“The staff and children at KU Windale are passionate about the natural environment and environmental education.” says the Centre’s Director, Fiona Moul. “We encourage the children to develop an understanding about sustainability by exploring the natural world around them.”

Bob’s Wildlife Show is a regular visitor to KU Windale Preschool as part of the centre’s commitment to environmental sustainability. The show allows the children to gain an understanding of nature and how we interact with it. At the preschool the children are also involved in tending the vegetable garden and recycling.

KU Windale Preschool is conveniently located on South Street Windale and is currently accepting enrolments for children aged 2-5 years.

KU is Australia’s leading provider of community based, early childhood education and care. With over 100 years experience in the Hunter, we are committed to providing high quality, affordable preschool and long day care services.

By incorporating sustainable practices in our centre’s and teaching these principles in our programs, KU is contributing to a sustainable future for our children, families and communities.
