

Experience the KU Difference

What makes the KU Difference?

At KU, we create all our educational programs with the child as the central focus. From your child's very first visit, until they transition to school, with KU's play-based approach and our team of qualified and experienced teachers and educators, we are working with you to support your child's learning and wellbeing. We draw upon more than 128 years of experience and create opportunities that encourage children to connect, wonder, explore and discover.

Children attending KU services enjoy the lifelong legacy – they develop skills, curiosity and confidence that fuel continued learning for life. Even though KU services are part of one of the largest and most trusted early education organisations, you will notice right away that no two services are the same. Each service is unique, and offers its own opportunities specific to the local community.
Choose Quality. Experience KU.

Our vision

To lead and inspire young children's learning for life.

Our purpose

Is to partner with families and communities to nurture children's learning, development and wellbeing.

Proudly a not for profit and for purpose organisation

Children's Services
Since 1895

Quality Heritage Experience

Since 1895, KU has been delivering early childhood education and currently operates 120 services and programs. We enrich the lives of more than 10,000 children each year.

In addition to being Australia's most experienced community-based provider, we are highly respected for our proven high-quality programs. KU's comprehensive professional learning program and dedicated teams of experienced early childhood teachers and educators are invaluable in maintaining our high standards.

Children Families Communities

Each KU service is unique and is a reflection of the children and the families who attend the service and their communities. We foster partnerships with families with open communication as a vital part of forming that strong relationship.

We also encourage the involvement of parents and families within our services and provide many opportunities to offer feedback, assistance, and practical hands-on support.

Play Discover Learn

The early years are a special time in a child's life. It is an exciting period of discovery and learning. KU has a strong play-based learning philosophy and our qualified early childhood staff create programs based on current research, practice, and decades of experience.

Play-based programs provide a range of intentional and meaningful experiences that enable children's choice and agency, supporting their transition to school and throughout life.
