

Introducing KU Children's Services

Established in 1895, KU is a respected Australian community based, not for profit provider of early childhood education. Our breadth of management extends nationally across 115 services including preschool, long day care, occasional care and school aged programs.

KU is a trusted and respected adviser to families, communities, educators, the media, and policy makers on early childhood education, particularly in relation to quality, inclusion and affordability.

This level of experience brings knowledge and expertise in the early childhood sector. Drawing on KU's wealth of expertise, the KU Professional Learning team is well positioned to work with a wide range of early childhood services to identify strategies and solutions to assist with implementing the National Quality Framework.

The KU Professional Learning team is dedicated to providing universal access and supporting the ongoing professional learning needs of early childhood services.

KU Professional Learning, Victoria

Provoking Minds
Building Capacity

Proudly a not for profit organisation

“The affordable and tailored program offered by KU Professional Learning not only provided our service with new concepts and ideas, but fostered greater strategic and managerial directions.”

President, Gosford Community CCC

Customised Training and In-Residence Support

KU understands the complexities of providing high quality education to young children particularly within the framework of the National Quality Agenda.

KU Professional Learning offers a number of courses that can be tailored to meet the professional learning needs of your service. The courses can be delivered onsite or online at a time convenient to your team.

KU’s highly qualified team of early childhood consultants has an extensive range of skills and experience, the point of difference being that the course facilitator is expertly equipped to deliver the content of each course they present.

Unique to KU is the option to couple professional learning sessions with In-Residence Support. The In Residence Program provides facilitators who deliver on-site coaching and mentoring to support learning and quality improvement within the Victorian Early Years Learning and Development Framework.

Program and Featured Events

KU Professional Learning Victoria offers an annual professional learning and development program with events scheduled throughout the year. This provides a variety of opportunities for early childhood professionals to engage in ongoing learning and reflective practice.

All workshops are mapped against the National Quality Standard, the Victorian Early Years Learning and Development Framework and the Australian Professional Standards for Teachers.

Experienced and skilled staff facilitate the Professional Learning and Development Program, providing opportunities to explore and unpack:

- ▶ Pedagogy and Practice
- ▶ Relationships and Attachment
- ▶ Science Technology Engineering and Maths (STEM)
- ▶ Education for Sustainability
- ▶ Infants and Toddlers
- ▶ Continuous Improvement
- ▶ Program and Planning

Publications and Resources

Publications and resources are available for purchase to support services with ongoing professional learning and compliance.

The suite of KU resources are a reflection of KU’s commitment to the provision of high quality programs for young children. Developed through unique action research and professional learning community projects, the range of resources have been designed to support high quality practice and provide for individual and team-based professional learning.

Our resources and publications support educators with:

- ▶ Pedagogy and Practice
- ▶ The National Quality Framework
- ▶ Early Years Literacy
- ▶ Guiding Children’s Behaviour
- ▶ Education for Sustainability
